DATE MAILED:

Please find below and/or attached an Office communication concerning this application or proceeding.

Commissioner for Patents**Notice of Incomplete Response**

The reply filed on September 28, 2007 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): In the response filed September 28, 2007, Applicant has amended all pending claims to be directed to a different invention than the one that was searched in the previous Office Action. For example, as amended, claims 1, 3-8, and 14-16 are directed to an invention that is independent or distinct from the invention searched in the previous Office Action for the following reasons: In response to the prior Office Action mailed August 22, 2007, Applicant has amended the claims to read on a process for delivering RNA into a cell of a mammal to block the production of a protein. As amended, the claims are directed to a process for delivering a RNA into a cell of a mammal to inhibit protein production, the examination of which would require a separate and distinct search from that of the previous Office Action directed to a process for delivering a polynucleotide into a cell of a mammal to inhibit endogenous nucleotide sequence expression. A new, separate and distinct search would be required for a process for delivering a RNA into a cell of a mammal to block the production of a protein, separate from the search of a process for delivering a polynucleotide into a cell of a mammal to inhibit endogenous nucleotide sequence expression. Applicant has received an action on the merits for the previous invention, drawn to a process for delivering a polynucleotide into a cell of a mammal to inhibit endogenous nucleotide sequence expression, and all pending claims are drawn to a different invention.

Since the above-mentioned reply appears to be bona fide, applicant is given ONE (1) MONTH or THIRTY (30) DAYS from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).

Any inquiry concerning this communication or earlier communications from the Examiner should be directed to Terra C. Gibbs whose telephone number is 571-272-0758. The examiner can normally be reached on 9 am - 5 pm M-F. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James Schultz can be reached on 571-272-0763. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.

Patent applicants with problems or questions regarding electronic images that can be viewed in the Patent Application Information Retrieval system (PAIR) can now contact the USPTO's Patent Electronic Business Center (Patent EBC) for assistance. Representatives are available to answer your questions daily from 6 am to midnight (EST). The toll free number is (866) 217-9197. When calling please have your application serial or patent number, the type of document you are having an image problem with, the number of pages and the specific nature of the problem. The Patent Electronic Business Center will notify applicants of the resolution of the problem within 5-7 business days. Applicants can also check PAIR to confirm that the problem has been corrected. The USPTO's Patent Electronic Business Center is a complete service center supporting all patent business on the Internet. The USPTO's PAIR system provides Internet-based access to patent application status and history information. It also enables applicants to view the scanned images of their own application file folder(s) as well as general patent information available to the public.

For all other customer support, please call the USPTO Call Center (UCC) at 800-786-9199.
